Michigan Agricultural Mediation Program (MAMP)

Do you have a disagreement over an agricultural loan?
Have you received an adverse determination from an
agency of the U.S. Department of Agriculture (USDA)?
If so, you might consider mediation.

The Michigan Agricultural Mediation Program (MAMP) helps resolve disputes between farmers and USDA agencies and between farmers and their lenders or creditors.

The MAMP provides trained mediators to help the parties to a dispute communicate effectively about the issues and develop options for resolution. Mediation is designed to resolve disputes quickly and confidentially while saving the parties' time, money and stress by avoiding hearings or litigation. Eighty to 100 percent of cases mediated by the MAMP are resolved each year. If resolution is not reached, the parties can still request a USDA hearing or proceed to court. There is no cost to the parties for using MAMP services.

MICHIGAN RESIDENTS SEEKING MEDIATION OR WISHING TO LEARN MORE CAN CALL THE MAMP AT (616) 774-0121 OR VISIT WWW.AGMEDIATION.ORG.

RECON
Technologies, L.L.C.
Dairy Parlor Solutions

ECA Technology
Effective & Affordable Teat Dip
Air Driven Teat Brushes
Parlor Foaming Systems

Recon is a Michigan based manufacturer and supplier of innovative dairy parlor equipment for superior cleaning functions and increased productivity.
